Objective:

To create solid design, be challenged to expand my design and illustration knowledge, and work with a passionate group of people. I am looking for a position where I can build working relationships with fun people and be a strong inspirational asset to my creative team.

Education:

Bachelor of Fine Arts with a focus in Graphic Design from Colorado State University. Concentration of study in Layout Design, Composition, Poster Design, Print Design, Printing Process, Color, Typography and Illustration. Completed courses in Figure Drawing, Spatial Drawing, Painting, Sculpture and General Education.

Skills:

Proficient with Photoshop, Illustrator, Acrobat, Streamline. Experienced with QuarkXPress, BBEdit, CSS, HTML, Flash, Corel Draw, Freehand, Microsoft Office and Interwoven MediaBin. I am Proficient in both Mac and PC platforms. I am an avid illustrator both on and off the computer, and capable within a range of mediums. Great at conceptualizing new ideas and have experience with project management through freelancing.

Strengths:

Accompanied with an exceptional work ethic, and burning desire in everything I do, I can bring new and exciting ideas to any design team. I enjoy working with others and find value in good communication. I am a fast learner and have good communication skills.

Experience:

03/06-09/06, Production Designer / Microsoft

My current contract has enabled me to do a bit of illustration, icon design, managing a spec site for the team, and a good deal of production based work .

12/05-02/06, Visual Designer / Cingular:

I was responsible for the weekly Cingular home page marquees, linked product landing pages and promotional email banner advertisements. These items were updated a few times a week. I worked on multiple promotions and filled a number of content updating requests for internal Cingular ecommerce clients daily.

11/04-11/05, Designer / Microsoft:

As a designer on the Digital Imaging Studio team (DIS) at Microsoft with three other designers, I was part of a team that supported numerous groups with design and Imaging components for their separate MSN sites. We produced upwards of 1400 images a week for teams that include Windows Media, Encarta, MSN House and Home, MSN Entertainment, MSN Latino, MSN Auto, Money, Office, Lifestyles and more. There was a lot of production work that we did as well as a fair amount of Hero design and various home page layout and template design.

08/04-11/05, Graphic Designer / Cranium Inc.:

While working at Cranium I was the sole designer for their marketing team during a recent re-branding process last year. Our team redesigned the e-commerce presence for both US and International Cranium sites. For this process I provided design and direction. We came up with a

clean easy read design that followed Cranium branding and served the shopping and checkout needs of the site. While at Cranium I also designed hero images for feature portions of their site. I also designed the meet Gary Baseman page, spotlighting Cranium's creative character artist.

11/03- 07/04, Junior Designer / Backyard Interact:

As a part-time Junior Designer for Backyard Interact a web design company located here in Seattle, my tasks include production art, icon design, web design, user interface design and following the art direction of the two principle designers.

4/02- present, Freelance Designer:

Working with various clients designing their new identities and subsequent materials I have been forced to learn good client relation skills. My freelance projects have included website design with HTML, user interface design, logo / identity design, icon design and production design.
